**Subject:** Re: LTM presentation

Dave,

Sounds great, especially with the new '09 data beginning to come in, but it would probably be best in April - that would give us a better opportunity to incorporate and interpret the new data.

Subject: LTM presentation

---

Hi Barb and Skip - I wanted to ask if you would be willing to discuss the LTM program at our next monthly public meeting in NB. We've had good luck the last couple of months bringing in guest speakers (they're tired of listening to me!) plus it would help answer questions about why we're proposing to dredge the lower harbor in parallel with the UH if we go with a LH CAD cell. (i.e., LTM shows that we haven't recontaminated the LH to date, thus we don't expect to in the future).

The meeting is Th 3/25/10 in the main library, 7pm - 8:45pm. As long or as short a presentation as you see fit. And if this month doesn't work than maybe April 29??

Thanks - Dave
